PARTNERSHIP

Working together with the Original Equipment Manufacturer to get the best out of the assets owned

**COMPLETE
PEACE OF MIND**

Transfer of risk back to Erbe with uptime guarantee

SUPPORT

Regular training provision, fast turn around

OPTIMAL SOLUTIONS FROM THE BEGINNING

You can completely rely on our products. We are constantly advancing our units and instruments for you, and in return you get user-friendly systems for electrosurgery, hydrosurgery and cryosurgery. All according to the strictest quality criteria, right from the start, already during product definition and development.

PERFECT SOLUTIONS IN SERVICE

Service tailored to your needs – that's what we mean with a perfect solution. First-class service, from person to person: From specialist in surgery and endoscopy equipment to you. If you don't know us yet, take your time. Complete service package with uptime guarantee.

PARTNERS SHARE THEIR KNOWLEDGE

Our user- and service training courses enable you to handle our products safely. The trainings support your users and medical technicians with helpful information. Incorrectly connected instruments are usually detected by the unit. Error messages are stored. All this avoids errors and following damage as well as error in the future.

OPTIMAL PLANNING & BUDGET SAFETY

With Erbe plus service complete you are on the safe side with us as a strategic partner in the maintenance process – at surprisingly favorable conditions

Your service package with complete all-round coverage

If your maintenance concept is aimed at almost 100% availability of the units with full budget security, then Erbe complete is exactly right for you.

This full-service package protects you from surprises, as you combine testing/inspection and repair services at a fixed annual price – including loan equipment. This really includes everything: all travel, working hours, all spare parts – no matter how frequent or how extensive the necessary services are.
