

No: 20195-511

Bipolar forceps Premium, straight

- Limited tissue adhesion due to high temperature conductivity
- Long instrument life due to high-quality alloy
- Targeted precise coagulation due to precise design of the tips
- Firm grasping of tissue due to abraded gripping surface
- Less time required intraoperatively for cleaning
- Good visibility at the operating site due to reduced light reflections (e.g. during preparation under a microscope)

Dimensions and weight

| | |
|--------|-----------------------|
| Tip | tip 0.4 mm, very fine |
| Length | 200 mm |

Basic features

| | |
|-----------------|----------|
| Shape / Forming | straight |
|-----------------|----------|

Surface

| | |
|----------|-----------|
| Branches | roughened |
|----------|-----------|

Cleaning and Reprocessing

| | |
|---------------------------------|------------|
| Cleaning in washer disinfectant | max 95 °C |
| Sterilization in autoclave | max 138 °C |

Standards

| | |
|---|-----|
| Classification acc. to 93/42 EWG | IIb |
| Protection category acc. to EN 60 601-1 | |
| Type acc. to EN 60 601-1 | |

Additional product information

| | |
|--------------------------|---------|
| Packaging unit | 1 Piece |
| Max. electrical capacity | 0.5 kVp |
